## Farewell party for Mabuhay Sensei & graduate student in September 2014

Report by **D.T.Bach**

It was a cozy party hosted by Nakagoshi&Xuan lab members, to bid farewell to Mabuhay Sensei, Invited Professor from the Mindanao State University, Philippines and two Master students who graduated in September, PheakdeYa Neat from Cambodia and Hamiudin from Indonesia

*Take some picture with Pheakdey before the party start*

*Hamiudin with Filipino food*

*Nakagoshi Sensei writing his message*

Most of the lab members had gathered at Mabuhay sensei's apartment at 5:00 PM on September 23, 2014. We had received a warm welcome from her family. The food preparation was time-consuming, so we helped to arrange the room and spent time in a friendly chat. Mabuhay sensei's family offered us some delicious traditional Filipino food, while Hamiudin and Beni brought some Indonesian Yellow rice and Halal chicken.

*Campaiiii!!!*

*Mabuhay's Sensei family preparing foods*

The program started at 6:00 pm with Beni as the emcee . First, we stood in a circle to listen to the short speech of Mabuhay Sensei and the graduating students. After them, Xuan Sensei gave thanks to Mabuhay Sensei for her helpful English class and shared his insights for the graduate students. To close, Nakagoshi Sensei made a remark where he mentioned about the difference between IDEC and other faculty in Hiroshima University. According to him, "In IDEC, although after graduation everybody have different jobs such as senior teacher, business man etc., not a science researcher, we still keep contact with each other. And now we have a graduate student who came back to IDEC as visiting professor. | Congratulations everyone for all your achievements".

Then we started the party by "Kampai" with some Tea, juice, soda etc.

*Nakagoshi & Xuan Sensei giving their insights*

Before dinner, Nakagoshi Sensei gave a souvenir to Prof. Mabuhay. To reciprocate Sensei's kindness, Pheakday also gave some gifts from his country to both Nakagoshi & Xuan Sensei, and to all lab members.

コメントの追加 [J1]: What do you mean?

コメントの追加 [BD2R1]: I mean that in another faculty if after graduate we change our job so we don't contact each other anymore(from researcher→another); Sensei gave a long speech and I want to makes it shorter

コメントの追加 [J3]: I think some facts are missing here.

コメントの追加 [BD4R3]: You're right. Very sorry that with my poor English I couldn't heard clearly everything Sensei said. If possible, could you please fill this space for me? Thanks you!

*Some memorable souvenir was given from both sides*

Because some members needed to go home early, we took some pictures together before enjoying the dinner and chatting. After the party, some members stayed behind to help Mabuhay Sensei clean her room.

*Photo session with Prof. Mabuhay's family*

Finally, congratulation to everyone. We believe that you will certainly achieve your objectives in the future. Hope to see you again.
