FAREWELL PARTY FOR RACHMAD FIRDAUS AND BENI RAHARJO

Reported by Do Tan Khang

The farewell party for Dr. Rachmad Firdaus, Assistant Professor in the Landscape Ecology Laboratory, and Dr. Beni Raharjo who successfully finished the doctoral course was organized at lunch time at Hiroshima International Plaza, to congratulate their successes and achievements at IDEC, Hiroshima University.

We were really happy with the presence of Prof. Nakagoshi, Prof. Xuan, and most of the students of the NIX laboratory.

First, Mr. Bandos introduced about the reason of the party and invited Prof. Nakagoshi to give a speech. Prof. Nakagoshi shared his experiences about college life then told us about the importance of learning. Finally, he congratulated Dr. Beni and thanked to Dr. Rachmad for their significant contributions.

We had a great time; sharing stories and discussing future plans during the party. Subsequently, Prof. Nakagoshi offered both Dr. Rachmad and Dr. Beni a scrapbook that contains the handwriting of all Professors and members of the NIX lab as a memento of their friendship. As a result, Dr. Rachmad and Dr. Beni respectively expressed their appreciation and gratitude to Professor and other members. Prof. Xuan shortly congratulated Dr. Beni and Dr. Rachmad.

The party ended after taking a group photo.
